Item# 13203 - 32 fl. oz

PLANT DERIVED MINERALS™

Our Plant Derived Mineral™ products are liquid concentrates containing a natural assortment of up to 77 minerals from prehistoric plants in their unaltered colloidal form. Minerals never occurred in a uniform blanket on the crust of the Earth. Therefore, unless you supplement with minerals, you can't guarantee that you'll get all you need through the four food groups. A mineral deficiency

can lead to disease or even death. Plant Derived Minerals™ can help in your fight against deficiencies. It even comes in a great-tasting cherry flavor also. Each quart of Majestic Earth® Plant Derived Colloidal Minerals™ contains 19,000 mg of dissolved solids. Don't let a day go by without it.
